Existing Photographs

Section Drawing

Louver's Foundation

Louver Foundation/ Solid Surface Require
(In Dealership Scope)

Pre-requisites for Facade ACP Cladding

1. M. S Frame structure, supports and brackets in dealer scope, all these should be in alignment so that installation of signage is in alignment
2. We will required iron scaffolding (H – frame) at the entire area which is dedicated to signage, this is also under dealers scope.
3. We will require a fabricator / welder on site, when the frame structure is to be made for installation of Signage, this is also under dealer's scope.
4. Foundation for the Louvers, if required will also be in dealer's scope.

Thank You
